

16.7 x 30.5

piezas 8 x 35

$$M = \frac{400 \times 0.5^2}{8} = 1012 \text{ m.kg.} \quad R_x = \frac{101200}{1200} = 84.37 \text{ cm}^3$$

$$J \ 160 \Rightarrow R_x = 117.$$
